PLAN OVERTHROW OF 3 GOVERNMENTS

Communist Uprising in France, Italy and Spain

REVOLT FIXED MAY 1

Paris Police Sieze Documents Which Reveal Entire Scheme—Communist Editor Held.

Paris, Feb. 15. The overthrow of the "Bourgeois" governments of Spain, Italy and France is outlined in documents seized after a thorough search yesterday, following upon the discovery of a widespread communist plot. The date fixed by the Communists for this event was May 1, 1921.

The contemplated arrest of two Communist members of the Chamber of Deputies, alleged proof against whom Judge Jousselin has delivered to M. Marraud, Minister of the Interior, seems to have brought the French to a realization of the importance of the attempt against the security of the state.

Discoveries made by the police of Barcelona and Milan show that the plot included the three European Latin countries. Transmission of funds was effected through an American financial organization, with European headquarters in Paris and branches in Berlin and Vienna.

Soviets have been organized through out France with Brest as headquarters, according to the police, ready to take over the railroads, banks and transportation and all civil services. The plot appears to have been organized without the knowledge of M. Cachin, leader of the French Communist party, against whom the police say they will not demand the lifting of parliamentary immunity.

The discovery of checks emanating from Berlin and paid through an American transportation company appears to have caused a revulsion of feeling in French political and official circles and also among the workingmen's committees, which so long as the leaders professed to be working for "principles" were willing to support them. But a poster was issued yesterday evening in the Second ward, where an election will be held February 27, asking the voters to support the moderate socialist element in preference to the extremists.

The French Communist press, departing from its menacing attitude of the past few months, expresses surprise that repressive measures should come from Premier Briand, "a former comrade."

L'Humanite, the official organ of the French Communists, appears to be especially upset by the arrest of its city editor, M. Dunois, a canceled check for 20,000 francs issued in his name at Berlin being held by the police.

The consensus of opinion in the Chamber lobbies, where the probable arrest of the two Communist Deputies has been freely commented upon is that the Government has struck a knockout blow against the Communist propaganda and that when the Minister of the Interior requests that the lifting of the parliamentary immunity in the case of the two compromised Deputies his request will be granted by a large majority, and, finally, that the plot is doomed to failure.

Lenten Lectures

Rev. Wallace E. Rollins to Begin Series at St. Paul's Tomorrow Night

Rev. Wallace E. Rollins, D. D., who occupies the chair of church history at the Theological Seminary, will begin a series of lenten lectures at St. Paul's Church tomorrow night at 8 o'clock.

A schedule of his subjects together with the dates of delivery will be found in this issue of the Gazette.

A rare opportunity is given our citizens, generally, and Bible students will be especially interested in having these four greatest of books analyzed and explained in the light of the knowledge and proofs obtained from the lates resources and recent discoveries.

Prepare For Style Show

Will be Held March 17, 18 and 19.—Committees Meet Monday Night

Tentative plans for the holding of the second annual style show and fashion exposition in Alexandria were made at a meeting of the general committee which was held last evening and committees to have charge of the work were named.

The style show is to be held Thursday, Friday and Saturday, March 17, 18 and 19, and the big parade, which featured the show last year will be held on the evening of March 16. The parade this year promises to be featured by a larger number of beautifully decorated floats than were shown last year and the merchants as a whole are already taking considerable interest in the plans for the show.

A meeting of all committees is to be called for the Chamber of Commerce rooms at 730 o'clock next Monday evening and every person who has been given a place on a committee is urged to be present and help along the boosting of the city.

The following committees were appointed last evening.

Finance—R. E. Knicket, chairman; L. Ruben, C. Page Waller, Jr., B Weil, W. H. Thomas, A. Katz and Llewellyn Dyson.

Parade—Claude W. Fletcher, chairman; R. L. Myers, Jr., W. E. Moore, Wm. G. Illich, A. T. Peake, J. S. West, J. M. Duncan, J. M. Dickerson, C. M. Noetzel.

Publicity—Theodore Harris, chairman; M. T. Dwyer, James F. Peyton, Harry W. Wrde, Joseph H. Newell, B. B. Ezrine, Walter C. Drury, C. B. Morrison.

Music—H. Friedlander, chairman; R. C. Sullivan, E. Gorman Ridgely, Julius Wolf, S. Blondheim, S. Gerber, Frank Michelbach, E. R. Ellicott.

Window decorations—A. K. Baker, C. L. Osborne, Harry Fedder, George W. Ramby, H. R. Rubsam.

Seize Bitters

Dealer Whose Place Capture is Made Held For Grand Jury

The crusade started here several weeks ago by the members of the police department to arrest all dealers selling extracts in violation of the law and also selling certain brands of bitters containing alcohol, that is more than allowed by law, continues.

Last night Chief Goods and Sergt. Campbell went to a store in Queen street and arrested the proprietor and also took in custody a trunk containing nearly three dozen bottles of bitters marked thirteen to fourteen per cent alcohol. The dealer had the trunk in his bed room. He denied selling it.

Justice Snow held him for the action of the grand jury and his bail was fixed at $200. Other arrests are expected.

Many indictments are to be presented for these offenses and the state will endeavor to secure convictions in each case in order to stop the traffic in extracts and bitters about which many complaints have been received. It is claimed by the medical authorities that some of the stuff now being sold for a substitute for whisky causes death, and in some cases blindness, paralysis, and a host of other diseases.

WOMAN'S AUXILIARY TO THE AMERICAN LEGION

The regular monthly meeting of the Woman's Auxiliary to the American Legion was to have been held last night, but no meeting was called waiting instructions from Richmond as to the activities of the legion. A meeting will be called immediately upon receipt of news from headquarters, when there is definite business to come before the auxiliary.

The lack of interest in the work of this most important organization is discouraging to the "faithful few," who can always be depended upon for their attendance and co-operation, but with the many eligible women in Alexandria a more progressive and active society could be in existence, one whose reports to the state organization should be an example to all.

WILSON'S ATTACK ON G.O.P. POLICY

President Will Use Veto of Emergency Tariff Bill As Vehicle

MAKE REASON PLAIN

Underwood Gives Notice to Senate—Debated Without Progress—Fordney Reveals Plans.

Washington, Feb. 15.—Notice was served on the Senate yesterday by Senator Underwood, of Alabama, minority leader, that President Wilson would use his veto of the Fordney Emergency Tariff bill as a vehicle for a final attack on Republican policies.

The Democratic leader told his colleagues that he had received positive assurance that the President would veto the Fordney measure not only by a mere withholding of his signature but would return it with a comprehensive statement of his reasons, which would include a farewell blast at the record of the present Congress under Republican leadership. Other developments in the tariff situation yesterday were:

Announcement by Senator McCumber, Republican, North Dakota, that a vote on the Fordney bill probably would be obtained tonight.

A statement by Chairman Fordney, of the House Ways and Means Committee, making definite the intention of Republican leaders to press legislation revising the permanent tariff through the extra session before attempting consideration of taxation questions.

The Fordney bill was pulled out of its pigeonhole for several hours of debate late in the day. Nothing came of it, however, although it had been expected that a vote would be had on the amendment of Senator Smoot, Republican, Utah, changing the import rates on sugar from those accepted by the Senate Finance Committee. Mr. McCumber, as well as Senator Gay, Democrat, Louisiana, and Smoot discussed the amendment, and several other Senators got into the debate now and then, but when the session ended no definite progress had been made.

Senator Underwood was reticent about his assurances of a Presidential veto. He declined to say whether it came from the President direct and refused to answer questions relative to the form in which the information came.

The statement of the minority leader, however, was the cause of speculation among Senators on both sides of the emergency tariff question. It was generally accepted that as a result of the White House attitude the Democrats were more than willing to let the measure go to a vote, where all Senators' records could be preserved. At any rate, the session yesterday gave no evidence of the parliamentary jockeying and delay which characterized the earlier debates on tariff.

Senator McCumber did not elaborate on his statement that he expected a vote by tomorrow night.

Plans of Republican leaders concerning revision of the permanent tariff were made public in the form of a letter by Mr. Fordney to Representative Frear, Republican, Wisconsin. Any program, Mr. Fordney said, which did not contemplate immediate action on revision of the Underwood Tariff act would not be in accord with the "overwhelming expression of the people" in the November election.

The House Ways and Means Committee, its chairman, indicated, will launch into the work of framing the new tariff law immediately after the hearings now in process are concluded, probably within the next few days. The bill then will be made ready for introduction and consideration in the House in the early days of the extra session.

"After the tariff bill has passed the House," Mr. Fordney's letter continued, "and during the time it is being debated in the Senate time will be afforded to prepare a new revenue bill and to conduct hearings on which tax revision should be based."

Chairman Fordney also scouted published reports that the committee's mind was made up with respect to a sales tax and said that full consideration was to be given all revenue suggestions and that Treasury experts would be brought in for technical advices before action of any kind was taken.

Successful Lecture

Interesting Slides of the Great North west Shown

From the spectacularly illuminated truck, in which he arrived, to the last word picture, the appearance of L. O. Armstrong at the high school auditorium last night was a delightfully striking affair. The truck is furnished by the Bureau of Commercial Economics, of Washington and is a perfect example of the visual possibilities conceived by the director, Francis Holley.

Mr. Armstrong illustrated his wonderful lecture on the great out of doors with nearly a hundred slides and four reels of motion pictures. The pictures were all colored and beautiful beyond description and many of them were taken in the Canadian Rockies under seemingly impossible condition. In many of the mountain climbing pictures the camera man had to be tied to the climbers, and not only had to share their dangers and difficulty in climbing, but also had to carry and manage the camera and take the pictures as he went.

But while the pictures were indeed striking the lecture was even more so. After an experience of forty years traveling in the northwest and with a contagious eloquence possessed by few, the lecturer had no difficulty in taking every one of his hearers graphically with him in his interesting journeys. St. Paul's Church loaned the sterioptican and the Y. M. C. A. moving picture machine was utilized and the high school teachers were delighted with evening's entertainment and its educational possibilities.

Past Exalted Rulers

Elks Put on Degree And Honor Past Exalted Rulers—Social Follows

Past Exalted rulers' night was observed last night by Alexandria Lodge No. 758, Benevolent and Protective Order of Elks. There were a number of past exalted rulers in attendance and degree work was conferred with the chairs occupied by past exalted rulers as follows: W. H. P. Kelly, acting exalted ruler; D. E. Robey, acting leading knight; Clarence F. Johnson acting loyal knight; A. A. Parl, acting lecturing knight; George W. Bontz, acting secretary.

Afterward a social session was held. Arrangements were made for an excursion to be given to Marshall Hall this summer. A large number of candidates were elected to membership. The election of officers will take place March 14.

To Elect Officers

Directors of the Y. M. C. A., Will Meet for That Purpose

The newly elected board of directors of the Young Men's Christian Association will meet at the Chamber of Commerce tonight to elect officers for the coming year. At a recent annual meeting of the Alexandria Association twenty-one directors were elected, seven for one year, seven for two years and seven for three years. This was an addition of two directors as nineteen had been the previous number.

A large attendance of the newly elected members is expected this evening as the Y. M. C. A., is beginning to enlarge its sphere of activity and the new board will doubtless organize with the future work in mind. C. C. Lamond has been the president of the board for the past year. The meeting this evening at the Chamber of Commerce is called for 8 o'clock.

FRENCH ACE WITH ENVIABLE RECORD ARRIVES IN U. S.

New York, Feb. 15.—Charles Nungesser, the second French ace, who has 39 decorations and a record of bringing down 43 German planes, in flames, arrived here yesterday on the steamship France.

Nungesser, who was wounded 17 times during the war, was invited to this country, by the United States government and the Aero Club of America. He will exhibit several of his inventions for the improvement and safety of airplanes before the Aero Club.

He was accompanied to this country by the Marquis Antoine de Charette, a great grand nephew of President James K. Polk.

RATE HEARING SET FOR FEB. 25

Interstate Commerce Commission to Hear Wash.-Va., Fare Boost

DATE FIXED TODAY

Expected That Many Commuters From Here Will Attend Hearing—Old Rates to Prevail Till June 13.

The Interstate Commerce Commission will on February 25, beginning at 10 o'clock in the morning at its office in Washington hear the case of the Washington-Virginia Railway Company which seeks to increase its rates between this city, Washington and Mount Vernon and also on its Falls Church branch.

The commission only a short time ago entered an order suspending the rates asked for till June 13. This, therefore, means that regardless of the decision of the commission, the rates, if any increase is granted, would not become operative till June 13. It is expected that the executive committee of the Mount Vernon Division Commuters' Association soon will hold a conference with their attorney and arrange details for the case.

It also is expected that many of the commuters from this city and the adjoining counties will be present at the hearing. Some will testify.

News of the date for the hearing today was received by the Chamber of Commerce and others interested in the proposition.

Members of the Commuters' Association express the hope that as many persons as can will attend the hearings and help combat the movement of the road to increase the fare. The proposed increase in fare would be from 38 to 48 cents for a round trip and the price of the monthly ticket which contains fifty-two trips or twenty-six round trips would be increased from $4.56 to $5.50, and they ask to be permitted to take off the twenty-five trip book of tickets which is the most popular book used by passengers on this line.

It is now up to the commuters to get busy and fight the railroad on this increase, and members of the executive committee feels confident that if they get together they will win. Only nine days remain in which to prepare for the fight and everything will have to be in readiness by that time.

100 HELD IN LIQUOR MURDER

New York, Feb. 15.—Newark detectives, aided by Somerset and Middlesex county (N. J.) authorities last night raided the "whisky curb" in Newark and arrested more than 100 suspected bootleggers in connection with the murder of Leo Salamandra and Frank Walsh Thursday night in the Lincoln highway whisky robbery.

Mob of Negroes Sieze Member of Own Race

Savannah, Ga., Feb. 15.—A mob of negroes last night captured a negro at Pembroke charged with an attack on a negro schoolgirl late yesterday. At a late hour the mob was reported taking the negro to the victim for identification.

SLEEPING SICKNESS CLAIMS LIPPINCOTT

New York, Feb. 15.—The baffling nature of sleeping sickness, with its unidentified microzyme, aroused physicians last night when word came from Atlantic City that George T. Lippincott, banker and pioneer of the Eastern shore city and pleasure resort, had died from the malady.

Lippincott had been stricken with a strange ailment two weeks ago while aboard his houseboat in Florida waters. He was hurried home and prominenet physicians were called in attendance.

Two deaths in New York from sleeping sickness have been reported in the last 35 hours. The first case of the malady in Staten Island was reported during the day. Following the death Sunday of Richard J. Finna, 17, a high school boy, of Port Chester, New York, public funerals of persons dying from the disease have been forbidden by the health officer.

Bargains Tomorrow

Retailers Ready for Dollar Day—Big Slash in Prices

Practically every retail store in the city was the scene of considerable unusual activity today, the merchants setting the stage for the big DOLLAR DAY SALE that is scheduled for tomorrow.

And hundreds of shoppers throughout the district are on tip toe waiting for the hour that will mark the opening of the city's stores and the beginning of what is expected to be the biggest universal sale day that has ever been held in Alexandria.

DOLLAR DAY has been growing rapidly every quarter since the beginning of these sale in August 1919 and for the sale tomorrow about twice as many merchants are taking part as have ever been identified with one of these sales in the past. Alexandria is literally covered with the red and white cards advertising the DOLLAR DAY SALE and the Dollar Day shopper will have an easy time finding what he or she wishes to buy on this big day.

The Gazette is today carrying the advertisements of almost every merchant in the city who is taking part in the sale and every man and woman in the city should read these advertisements carefully before starting out on the shopping expedition tomorrow morning.

BANK AHEAD $5 BY BANDIT HOLD-UP

Mansfield, Mass., Feb. 15.—It cost five bandits $5 to attempt to hold up the Mansfield Co-operative Bank yesterday.

The bandits drove up in an automobile and two entered the bank, asking change for a $5 bill. When they drew revolvers and asked for "all the money in the bank," a bookkeeper ducked under a counter and crawled to the backdoor, where he shouted for help. The bandits began firing at him, shattering a glass panel, and then fled.

They forget to take their $5 bill with them, which will be used to buy a new panel.

Storekeeper Shot, Wife Held as Slayer

New Brunswick, N. J., Feb. 15.—Frank Schultz, owner of a general store at South River, about six miles from here, was shot and killed there yesterday. His wife, Mary who, according to the police, was in the store at the time, was arrested on a charge of first degree murder.

A patrolman who entered the store on hearing a shot, said he found Schultz on the floor dying of a wound through the head. Mrs. Schultz was nearby, he said, and a revolver lay on the floor about a foot from Schultz.

Mrs. Schultz, who denied there had been a quarrel, said she had started to leave the room after talking with her husband when she heard the shot.

The couple had been married two years.

NO-STOP TALKING GIRL STRAINS VOCAL CHORDS

Waukegan, Ill., Feb. 15.—Miriam Rubin, the 8 year old girl whose incessant talking has puzzled physicians, was prattling steadily on this the tenth day of her strange malady. It was announced, however, that the manual spinal treatment, which last night gave her a period of sleep, would be resumed.

Miriam slept last night soundly from 8:30 p. m., until 10 o'clock, and dozed restlessly from the latter hour until midnight. Physicians said that her strength and normal functions were continuing at a remarkable rate but that her vocal chords were showing signs of the strain.

Georgia Judge Fines Self for Violating Traffic Law

Augusta, Ga., Feb. 15.—Police Judge Lewis I. Kent found himself guilty yesterday of violating the traffic law, on evidence submitted by the policeman who docketed the case, and imposed the usual fine. He paid it.

BREAD WRAPPING LAW IN FORCE FEB. 23

Measure Indorsed by Dr. L. E. Foulks, City Health Officer

MILK LAW OPERATIVE

Since January 1 It Has Been Enforced—Food and Milk Supply Being Looked After by Health Department.

The bread wrapping ordinance that goes into effect February 23rd, is a law which I consider one of, if not the most important laws passed here in recent years says Health Officer Foulks.

I do not know of any form of food prepared for human consumption, that is more misused and abused in the handling, than a loaf o bread.

Bread is a universal food, used alike by rich and poor, hence it should be protected from contamination in every possible way, more so in fact than most other foodstuffs. Bread cannot be washed, nor is it cooked after being purchased, hence any germs that have accumulated upon the crust from the frequent handling, than a loaf of bread it leaves the bakery, until it reaches your table; are still there and in an active condition.

It is not hard to understand how easy it would be to convey the germs of disease in this manner. When I first took charge as health officer, of this city, I made a careful study of the methods used in handling bread, form the time it left the bakery until it was delivered to the lunch rooms, grocery stores and private families. My observations convinced me that it was high time for us to take some steps to protect this much abused and important article of daily food. I drew up the ordinance and it was promptly passed by City Councils and approved by the Mayor.

On and after February 23d it will be unlawful for any baker to deliver, or any grocer or other store to offer for sale, any unwrapped bread or biscuit, within the city limits. Kindly report any violation of this law to the health department.

Since January 1st, it has been unlawful or any milk dealer to deliver any milk within the city limits, unless the caps of the bottles are plainly marked with his name, or the name of the dairy where it was produced. And no grocery or other store can lawfully sell any milk unless each bottle is so marked. Don't purchase any milk unless it complies with the above law, as it was made for your protection.

The health department is taking all steps necessary in protecting our food and milk supply.

Prisoner's Wish Granted

Desire of Adam Robinson, to Stay in Alexandria Gets a 30 Day Sentence

The desire of Adam Robinson, colored, all the way from Jacksonville, Fla., to remain around Alexandria, where he said he would like to work awhile before leaving, resulted in a thirty day visit here to the Hotel Cox. Robinson was acting in a suspicious manner yesterday at Rosemont when picked up by Policeman Magner. Justice Snow was going to make Robinson free as the American eagle, but when he asked Robinson if he could leave the city for Washington right away Robinson replied that he would like to stay here awhile longer and his wish was granted.

LONDON IS SURE WILSON OPPOSED ANNULLING DEBT

London, Feb. 15.—Inquiries made in all official circles here which would have knowledge of the matter have failed to substantiate the report from the United States that President Wilson promised to use his influence for the cancellation of the Allied debt due the United States when the Versailles treaty had been ratified. The genral opinion among officials is that Mr. Wilson was unfavorable to such a proposition.

TO-DAY'S THOUGHT. Though thou shouldst bray a fool in a mortar among wheat with a pestle, yet will not his foolishness depart from him.

Old Testament.

Big Dollar Day.

Tomorrow, Wednesday, will be a day memorable among the thrifty of Alexandria. We hold our merchants to be as alive and progressive as those of any city in the country. Tomorrow they want to prove this and their offerings will put many a dollar into the pockets of our citizens. A dollar saved is a dollar earned. The quality of a true bargain is never strained. It is twice blest: it blesses him that gives and him that takes. Thus, the merchant benefits both his customer and himself.

Other things our merchants want to prove, as well. They want to show in tomorrow's dealings that their goods are equal to, and their prices are so low as, or lower than, the merchandise of the great city that neighbors us to the north.

We happen to know that one of our merchants has customers that wend their way northward along the Maryland shore of the Potomac, travel clear to Washington, and down again along the western shore to the good city of Alexandria to make their purchases and lay in their supplies. We hope, we believe, others of our merchants could tell the same flattering tale.

But what a commentary on our fellow-citizen's shrewdness and fairness and courtesy and honesty! He has pretty nearly reached the perfection of merchandising. But he would not tell you so! He would say that his ideal was yet a long ways off! We told him, not long since, that the road he was travelling would bring him to an annual volume of business that would credit a city of a million people.

Those of our merchants whom we know best are imbued with this same admirable spirit. Best of all, they work in harmony; they co-operate; each is helpful to the other. This is the secret of all success—co-operation! We believe in great things for our city and its merchants.

Tomorrow, we believe you will verify the truths we have uttered today. It is an easy matter, too. If you prove us right, you have done good to three parties—the merchant, yourself, and this newspaper.

RESCUE IRISHMAN CONDEMNED TO DIE

Dublin, Feb. 15.—Frank Teeling, who was sentenced to death by a British court-martial for his connection with the shooting of sixteen secret service men on November 21, was rescued last night from Kilmainham prison.

Teeling was tried before a general court-martial. He admitted he was in the affair, but at the conclusion of the trial he insisted that the other prisoners found guilty with him were not implicated.

Teeling, at the time of the shooting, fought a rear guard action in order to save the others who were with him. He was wounded and captured by the black and tans.

It is declared that the release of the prisoner last night was effected in a sensational manner by the Sinn Fein, but the details of the coup are lacking.

Another man is reported to have escaped at the same time as Teeling made his getaway. At midnight Dublin castle refused to deny or confirm the story.

WHY SHOULD I NOT PAY INCOME TAX?—HARDING

Washington, Feb. 15.—"Why should I be exempt when everybody else has to pay an income tax? asks President elect Harding. That same distaste for preference and laudation, which caused Mr. Harding to block lavish plans for a gorgeous inauguration, and which was shown in Mrs. Harding's economy in selecting her White House wardrobe, led the President elect yesterday to notify Representative Longworth, of Ohio, that he did not believe he should be granted exemption from paying a tax on his Presidential salary as is contemplated in a bill before the House Ways and Means Committee.

Under the present revenue law the tax on the President's salary amounts to $18,000.

President Wilson, however, was exempted from paying the tax under a decision of the United States Supreme Court holding that since the Chief Executive and Federal Judges assumed office prior to enactment of the present law they were not subject to the tax.

VALENTINES CARRY PLEA FOR STARVING

New York, Feb. 15.—One hundred thousand valentines, each directed "to a starving child in Europe, care of Herbert Hoover," and sent broadcast in the city, singalized the opening of the final stage of the campaign to raise $33,000,000 for the starving children of Eastern and Central Europe. On the other side, against a background of red hearts, is the message, "I inclose to buy American food for you."

These were being Saturday so as to reach their destination with the first mail yesterday morning, which was Valentine's Day. Men opened them with the morning's letters in their business offices and the postmen delivered them to thousands of women in their homes. The hotels sent them up with breakfst trays and place them on the table in the dining rooms at all the day's meals.

Would Reduce Rates And Rail Wages Also

Washington, Feb. 15.—Representative Black of Texas introduced today two joint resolutions providing for reduction of railroad rates and the wages of railroad employes.

One resolution, after stating that there had been a substantial decline in prices, especially of farm products, directs the Interstate Commerce Commission to review its decision of July, 1920, which authorized increases of freight and passenger rates, and directs such reduction as it may find just under present conditions.

The second resolution directs the Railroad Labor Board to review its decision of July, 1920.

America's 1918 Most Perfect Girl Weds

New Haven, Conn., Feb. 15.—Miss Betsy Buell, adjudged by the Smithsonian Institution in 1918 to be the most perfect American girl, was married in Hartford yesterday to Frank R. Valentine of Jersey City. The bride is the daughter of Mr. and Mrs. Clarence Buell of Clinton, Conn.

The distinction given Miss Buell was based upon ancestry and mental and physical qualifications. Her ancestors were among the earliest settlers of New England.

Mr. Valentine is an electrical engineer.

DIAMOND DYES

Alexandria Women Can Now Dye Old Faded Garments, Draperies, Anything

Buy "Diamond Dyes," no other kind, then perfect results are guaranteed. Each package of "Diamond Dyes" contains simple directions to diamond-dye worn, shabby skirts, waists, dresses, coats, gloves, stockings, sweaters, draperies, coverings, everything, weather wool, silk, linen, cotton or mixed goods, new, rich, fadeless colors. Druggist has Color Card.

CITY NEWS IN BRIEF

Lenten services will be held at 8 o'clock tomorrow night in Immanuel Lutheran Church.

Mr. and Mrs. Courtland H. Davis announce the arrival yesterday, at the Alexandria Hospital, of a fine son.

The music section of the Cameron Club will meet with Mrs. George Warfield, at 3 o'clock Thursday afternoon, not Wednesday.

There will be a called meeting of Relief Truck and Engine Company tonight at 7:20 o'clock. All members are requested to be present.

Miss Kathleen Faulkner who had her adenoids and tonsils removed by Dr. S. B. Moore at the Alexandria Hospital, is improving.

At a meeting of the Board of Directors of the Alexandria Chamber of Commerce held yesterday, Harry V. Faulding, 1240 Pennsylvania Avenue, Northwest, Washington, D. C., was admitted to membership.

John H. Thomas and wife and others have sold to Mrs. Marguerite Field Graham a house and lot at the south west corner of Payne and Cameron streets. Edward C. Haynes and wife have sold to Stella G. Link house and lot 512 North Washington street.

The funeral of Mrs. Mamie Butler, wife of James R. Butler, who died yesterday, will take place at 3 o'clock tomorrow afternoon from St. Paul's Episcopal Church. Services will be conducted by Rev. Dr. P. P. Phillips, and burial will be in Bethel cemetery.

Friends of Johnny McCuen will be glad to hear he is getting better. McCuen got his right shoulder dislocated and five ribs broken in a basketball game last week. He has a contract with one of the national basketball league teams. He was formerly an Alexandri lad, and played with Columbia Fire Company team last year.

A basketball game will be played tonight at the High School between the boys team and the Emerson Institute of Washigton, D. C. The game starts at 8 p. m.

There will also be a game between the second year High School girls and the Lee School girls at 7 p. m

The regular Friday community socials under the auspices of the Ladies Auxiliary to the Y. M. C. A., will be held this week at the Westminster Building. The picture show for children will be at 3:30 in the afternoon, and at 7.30 in the evening the pictures will be shown for the young people, followed by the social.

William F. M'Combs Not Expected to Live

New York, Feb. 15.—William F. McCombs, former chairman of the Democratic National Committee, is critically ill and expected to die at any time, his physicians announced yesterday. He has been suffering with heart disease for many weeks at the home of his sister here.

The gravity of Mr. McCombs' illness was confirmed last night by Frederick R. Ryan, his law partner. He was reticent, however, concerning information as to where the former Democratic chairman could be reached or the names of his physicians.

First Woman to Run for Federal Senate Makes Entry in Race

Jackson, Miss., Feb. 15.—Miss Belle Kearney, of Madison County, has announced her candidacy for the seat of Senator John Sharp Williams, who has declined to run for re-election. She will be opposed by Ex-Senator James K. Vardaman.

Miss Kearney will make the fight on a platform indorsing a league of nations, clearly safeguarding America's interests; education, law enforcement, restricted immigration, child welfare, protective legislation for women in industry, investors in homes, public health, social morality, economy in government, reduction in taxation, Federal aid for farmers, industrial courts and labor legislation.

Neighbor of Lincoln Dies; 100 Years Old

Chicago, Feb. 15.—Nineteen days after her 100th birthday, Mrs. Susan Woodworth, a friend of Abraham Lincoln in the early days, died at the residence of her daughter here. Mrs. Woodworth lived in New Salem, Ill., in 1831. Lincoln arrived there the year before to run a flatboat for Denton Offut, the village Croesus.

Mrs. Woodworth used to tell of Lincoln's famous wrestling match with Jack Armstrong, and how, as postmaster, he carried the postage stamps under his hat. She was a close friend of Ann Rutledge, Lincoln's first sweetheart.

VIRGINIA IN NEAR EAST RELIEF

Richmond, Feb. 15.—Four counties in Virginia have "gone over the top" in their drive for their quota of funds of Near East Relief, it was announced today by Oliver J. Sands, prominent banker of Richmond, who is state chairman.

The counties are: Essex, Page, Prince Edward and James City. Accomac County is also nearing its quota, Mr. Sands declared, Mrs. R. J. White of Kellar, a sister of State Senator Mapp, having charge of the work in this section. Bedford County is also said to be in a position where a few more substantial contributions will finish up its quota.

The State Committee has designated today as "Near East Relief" day in the secular schools. Literature and coin bags have already been distributed to these institutions.

Five thousand orphans are still waiting for Virginia to feed them, Mr. Sands declared.

Suggests Brain Tests To Supplant Ballot

Philadelphia, Feb. 15.—The time will come when America will choose her President by pyschological tests rather than by the ballot, Mrs. J. W. Williams, lecturer, declared in an address before the New Century Club here yesterday.

Mrs. Williams cited tests made to determining fitness of men in the army in which the efficient were weeded from the inefficient.

"We are not satisfied with the government as it now constituted," she said. "We want less law and more understanding, more godliness and less greed."

River Captain's Death Charged to Daughter

Milwaukee, Wis., Feb. 15.—Mrs. Mary Taylor was arrested and held without bail here yesterday on a warrant issued by District Attorney Zabel, charging her with the murder of her father, Capt. Braddick Quis, retired Mississippi River captain. Quis was found dead in the basement of her home here late Wednesday. The woman's attorney asked for an immediate hearing, but it was postponed for ten days on request of Zabel.

A coroner's examination showed Quis died of strangulation.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. No griping results from these pleasant little tablets. They cause the liver and bowels to act normally. They never force them to unnatural action. Dr. Edwards' Olive Tablets are a soothing, healing, vegetable compound mixed with olive oil.

If you have a bad taste, bad breath, feel dull, tired, are constipated or bilious, you'll find quick and sure results from Dr. Edwards' little Olive Tablets at bedtime. 15c and 30c a box.

Forty-Five Thousand Fixed As District Quota in U. Va. Centennial Endowment Fund

Charlottesville, Va., Feb. 15.—Forty five thousand dollars has been placed as the quota for the Alexandria district in the three million dollar Centennial Endowment Fund which will be raised for the University of Virginia, according to an announcement made today by Armistead M. Dobie, executive director of the fund. The quota for the whole state has been placed at $1,310,000.

Randall Caton, of Alexandria, is chairman for the fund in the Alexandria district which includes the counties of Arlington, Culpeper, Fairfax, Fauquier, Prince William, Rappahannock and Loudon.

Mr. Caton has practically completed the organization of the local chairmen who will assist him in raising this quota from the friends of the institution and its alumni in the seven counties of the district. Similar preparations are being made throughout the other fourteen districts in Virginia and in the twenty-seven regions outside of the state for the opening of the campaign, March 7th.

WILLIAM AND MARY ENDOWMENT

Williamsburg, Va., Feb. 15.—A contribution from Lady Nancy Astor of $500 to the Endowment Fund being raised by the College of William and Mary was announced today.

In a letter written from Cliveden, Taplow, England, to the committee, Lady Astor expresses best wishes for the success of the movement to endow William and Mary, at which some of her ancestors were students, and concludes her letter as follows:

"I hope that you will soon receive all the contributions that you will need to establish your fund of $1,000,000. With all good wishes,

Yours very truly,
Nancy Astor."

By her contribution Lady Astor joins a distinguished company, becoming the latest of a long list of persons of title who have contributed to the college's well being. The list of titled benefactors of the college, just compiled from old records and here made public, is as follows:

Their Majesties, King William and Queen Mary, the Founders, 1693.

Sir Robert Boyle, 1697.

His Excellency, Francis Nicholson, Governor, 1697.

Her Majesty, Queen Anne, 1710.

The Earl of Burlington.

Lady Gooch.

His Excellency, Lord Botetourt, Governor, 1770.

His Majesty, Louis XVI, King of France, 1781.

The Archbishop of Canterbury, 1867.

The Earl of Derby, 1867.

MR. OR MRS. DYSPEPTIC

Get rid of Indigestion and Stomach Worries with "Pape's Diapepsin"

The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion, pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful!

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diapepsin now! Don't stay dyspeptic! Try to regulate your stomach so you can eat favorite foods without causing distess. The cost is so little. The benefits so great.

HONOR MARTIN'S MEMORY

Washington, Feb. 15.—Memorial services were held in the House yesterday for the late Senator Thomas Staples Martin, of Virginia, for many years Democratic leader of the Senate. Representative Montague, formerly Governor of Virginia, presided. Speakers included members of the Virginia delegation and others, both Republicans and Democrats.

Senator Martin had never sought nor held public office until elected Senator in 1893. He was succeeded after his death, about a year ago, by Carter Glass, at that time Secretary of the Treasury.

MAE MARSH
"Polly of the Circus"

"Polly of the Circus" a tremendous Goldwyn picture made from Margaret Mayo's great play, with famous little Mae Marsh as its star. The story of "Polly," which has been given a tremendous production in its picturized form is that of a motherless girl of the circus, and of the part she plays in the drama of life in a small American village. Comedy, Rough on Rubes

ORDER BY GENERAL LEE FOUND AMONG RECORDS

After lying unnoticed among old family records for 50 years a copy of an order issued by General Robert E. Lee to the Army of Northern Virginia in 1864 has been added to the number of interesting historical records of the Civil War.

The paper, which is yellow with age, was sent to The Sun by J. H. Wunderlich, of the Marlborough Apartments. Mr. Wunderlich explained that it was found among Confederate records by his brother, one of the first members of the Army of the Potomac to enter Richmond in 1865.

The Rev. Dr. William Meade Dame, author and Confederate veteran, to whom the paper was shown, recognized one of the names appearing on the order as that of a close friend now living in Richmond. He thinks the order was lost or discarded when its instructions were no longer of value and in that way fell into Union hands.

There is nothing to indicae whether it is the original order issued from army headquarters or a copy sent out by one of Lee's subordinates.

Head. Qrs. Army No. Va.
April 7th, 1864

Circular.

General:—I hope that few of the soldiers of this army will find it necessary at any time in the coming campaign to surrender themselves prisoners of war. We cannot spare brave men to fill Federal prisons. Should, however, any be so unfortunate as to fall through unavoidable necessity into the hands of the enemy, it is important that they should preserve entire silence with regard to everything connected with the army, the positions, movements, organization or probable strength of any portions of it.

I wish the commanding officers of regiments and companies to instruct their men, should they be captured, under no circumstances to disclose the Brigade, Division or Corps to which they belong, but to give simply their names, company and regiment, and not to speak of military matters, even among their associates in misfortune. Proper prudence upon the part of all will be of great assistance in preserving that secrecy so essential to success.

I am, General, respectfully, your obedient serv't.

(Signed) R. E. Lee.
General.

Official:
(Sig.) W. H. Palmer, A. A. G.
Official:
(Sig.) R. H. Finney, A. A. G.
Official:
A. H. Stoddard, A. D. C.

On the back of the order is a note to the effect that company commanders will read and explain the contents to their men at inspection. This is signed J. R. Lane.

Dnxxxplaind mod on dom do mod W. H. Palmer, De Dame says, is Col. William H. Palmer, assistant adjutant general, who now lives in Richmond. He thinks J. R. Lane is Brigadier Geenral Jimmie Lane, of Lane's Brigade, which supported Dr. Dame's battery, the Richmond howitzers, on the Spotsylvania Courthouse line.

The headquarters from which the order was issued, Dr. Dame says, was near Orange Courthouse, five or six miles from where his battery was encamped at Morton's Ford, on the Rapidan.—Baltimore Sun.

Drinkwater's Human Bigness

John Drinkwater tells me hospitality is one of the dominant notes in the American character. During this English poet's visit to Boston with Mrs. Drinkwater he was the guest here of Miss Amy Lowell. While driving with him and Mrs. Drinkwater to the South Station, in the course of an interview, I was impressed with the friendship that he showed for Miss Lowell's chauffeur, whom he called Patrick, and his concern to have a station porter carry than the willing and amicable Patrick. The author of the play, "Abraham Lincoln," like his great hero, is fond of showing a kind of human bigness in trivial things.

BULLET STRIKES BUTTON, SAVING BLUECOAT'S LIFE

Bethlehem, Feb. 15.—Daniel Kelly, of the city police, owes his life to a button on his coat that deflected a bullet fired at him when searching Michael Corey. Corey fired twice through his overcoat pocket with a revolver. One of the bullets passed through Kelly's overcoat and the other struck the button. Before the officer could pull his gun Corey and his companion, Morris Bentley, fled. Several hours later Corey and Bentley were arrested. Corey, who will face a charge of shooting with intent to kill, admitted to Police Superintendent Davies. It is said, that he is a deserter from the army.

MOTHERS, DO THIS—
When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles chilblains, frosted feet and colds of the chest (it often prevents pneumonia).

MUSTEROLE
WILL NOT BLISTER

Population Center Found in Indiana

Spencer, Ind., is the town nearest the center of population of the United States, the Census Bureau announced yesterday.

Baltimore was found to be the center of population in 1790 when the first census was taken. In 1820 the center moved into Virginia, in 1830 into West Virginia and remained there until 1850. Ten years later it crossed the boundary line into Ohio, where it stayed until 1880.

In 1890 the center moved into Indiana. The movement has totaled sixty three miles since 1890.

French Tars Get Royal Welcome at Pensacola

Pensacola, Fla., Feb. 15.—A royal welcome greeted the sailors of the French cruiser Joan of Arc when shore leave was given to approximately 500 French tars here yesterday.

The cruiser, with a crew of 1,000 men arrived here late yesterday. The vessel will remain here several days.

"Gets-It" Ends All Corns

Just As Good For Calluses. Money Back If It Fails.

Thirty seconds after you touch the corn with this liquid corn remover the jabbing, stabbing pain of it stops, for all time.

Simple As A, B, C.

No corn, hard or soft, is too old or too deeply rooted to resist "Gets-It." Immediately it dries and shrivels, the edges loosen from the true flesh and soon you can peel it right off with your fingers as painlessly as you trim your nails.

Don't coddle corn pests. Don't nurse and pamper them. Don't cut and trim them. REMOVE them with "GETS-IT." Costs a trifle at any drug store. Mfd. by E. Lawrence & Co., Chicago.

Sold in Alexandria and recommended as the world's best corn remedy by Edgar Warfield, jr.

AUCTION SALE OF HANDSOME ROSEMONT RESIDENCE

By virtue of a deed of trust, dated April 15, 1920, recorded in Deed Book 70, page 545, from Frank J. Anderson and wife to the undersigned trustee to secure the payment of a certain note there in described, default having been made in the payment of said note, the undersigned trustee, at the request of the holder thereof will offer for sale at public auction at the Royal Street entrance to the Market Building, on SATURDAY, February 26, at TWELVE O'CLOCK NOON, the following lot of ground, with the building and improvements thereon, described as Lot numbered Twenty (20) Section numbered Five (5) Rosemont, as the same is shown in a plat there of, duly recorded in Deed Book 68, page 509 of the land records of Alexandria City, Virginia.

The property will be sold subject to a lien of a first deed of trust of Sixty-Five Hundred Dollars $6,500.00). Terms of sale, CASH, conveyancing at the cost of the purchaser.

Howard W. Smith, Trustee.
38-11c.

New Management

Having purchased the Mt. Vernon Dairy, I hope to give my customers the best possible service. I am going to personally care for the dairy and cordially invite the public to inspect same at any time and to see that everything is kept clean and sanitary.

I can furnish pasteurized or raw milk at 8c a pint or 15c a quart.

Fresh buttermilk every day. Cream 15c a half-pint; 30c a pint.

I also carry a line of canned goods, groceries, cakes, pies, bread and pastries, candy, cigars, cigarets.

Bring us your order in person or phone and it will be delivered at your home.

Your patronage respectfully solicited.

"Passion" Crowds Theatre

Perhaps never before has a photo-play producer asked the girl star of a picture to combat a cast of 5,000 all of whom (in the story) hate the woman in the case, and, Pola Negri, the famous continental actress who plays the stellar role in the First National spectacle, "Passion" now playing at the Richmond, can testify to the truth of the assertion that it is no fun to perform against such odds and furthermore, that such a crowd of actors can be as motley and as mean as the real thing. When in this play's denoument the woman who rose to be the nation's dictator, from the humble station of a little milliner, comes face to face with the necessity of doing battle with the thousands of irate citizens alone, and shorn of her old time power, this woman of such mixed virtues and follies is swept through most thrillingly dramatic situations, all of which are enacted in the shadows of deep, dark, impending tragedy.

It is said that a new invention has made possible the showing of such a large mob as 5,000 people in an extremely expansive setting and that this new method of reproduction is introduced for the first time on the screen by "Passion."

This is the first showing of this wonderful spectacle in Alexandria and it will be repeated at the Richmond Theatre tonight and tomorrow

WAY DOWN EAST

Because of the request of many of Washington's citizens, special arrangements have been completed to transfer D. W. Griffith's master production, "Way Down East," in its entirety to the Shubert-Garrick Theatre beginning Sunday, at 3 p. m.

"Way Down East," now in its third week at Polis has played to capacity audiences every night, with many hundreds unable to secure admission. It is with a view of accomodating those who were disappointed in gaining admission to Polis that the Shubert-Garrick was engaged. The showings will be twice daily, at 2 and 8 p. m., except on Sunday when the matinee will be at 3 p. m.

"Way Down East," is a gigantic production, bewildering in its beauty, colossal in its conception.

FOR COLORED SCHOOLS

Mary Pickford in Pollyanna at the Lincoln Theater, Henry and Queen streets, last Saturday, was a decided success. The play was given under the auspices of the alumni of the old Hallowell School for colored girls. The proceeds were for the benefit of the new Parker-Gray School.

Mr. Bramow, the proprietor, made an extra donation of five dollars, besides offering three cash prizes to the school children writing the three best compositions on the play.

A part of the proceeds from the play will be applied towards paying for a slide lantern set for visualized instruction at Parker-Gray School.

LANDIS IMPEACHED FOR BASEBALL WORK

Washington, Feb. 15.—On charges of high crimes and misdemeanors Federal Judge J. K. Landis, of Chicago, was impeached in the House of Representatives yesterday by Representative Welty, Democrat, of Ohio, because of his acceptance of the office of supreme arbitarator of baseball while still serving on the bench.

In taking this step, the Ohio member swept aside an opinion by Attorney General Palmer that Judge Landis was within the law, and that there was no law making such acceptance a crime, either misdemeanor or felony. The opinion was rendered recently by the Attorney General on the written request of Mr. Welty, who had questioned the judge's right to hold both positions.

Senate Asked to Vote $35,000 to Feed Army Pigeons Next Year

Washington, Feb. 15.—Army pigeons eat well.

The allowance of the House of $5,000 to feed them for a year is not enough. This is the opinion of Maj. Gen. George O. Squier, chief of the army's Signal Corps, in appealing to the Senate Military Affairs Committee yesterday to override the economy practices of the lower house and give his feathered personnel a larger appropriation.

The General told the committee that $35,000 should be appropriated to keep and train the birds, claiming that they had become an essential part of the army Air Service. He said that many of the birds have heroic war records and have achieved distinction since they figured in the Canadian trip of Lieutenants Farrell, Kloor and Hinton.

'TOUCHING' WAY WITH HER, HAS 'TONSILITIS GIRL'

Chicago, Feb. 15.—"Oh, doctor, you're hurting me!"

That is what Miss Bessie Alma Reta, who is known to police as "the tonsilitis girl," told a dozen South Side physicians during the last few days as they leaned over her to treat her throat. Then she begn to squirm and wave her hands around the doctors as if in extreme pain.

After their client had left the doctors would find their pocketbooks and watches missing. Eight pocketbooks and five watches belonging to the doctors who had treated the "tonsilitis girl" were recovered yesterday by police in pawnshops.

A Trunk With a Pedigree

"I was traveling in Bulgaria in 1914, and when the war broke out I left that country in such a hurry that I lost my trunk in making my exit," said A. B. Farquhar, of York, Pa. "While this was not a very strange occurrence, the odd part of the story comes in when I tell you that after seven years of wandering that trunk reached me at my home just last month. I put the matter in the hands of a tracer, but had long ago given up the hope of ever seeing it again. Among several adventures that the trunk had passed through the tracer's report revealed that it had been in a shipwrecked in the Black Sea. When I opened it I found the contents intact and deemed myself a lucky man."

"Simpson's Old Stand"

SAYS CHASCO-VIN RESTORED HER TO PERFECT HEALTH

Will Always Recommend It Because of Its Quick and Happy Results

Mrs. Susie Tiller, 759 Pine St., Camden, N. J., writes: "I suffered from a run-down system for a long time. It affected my appetite and nervous system and I wasn't interested in anything.

"After reading about Chasco-Vin I made up my mind to try it. As I finished up the first bottle I felt ever so much better. I am now on the second bottle and I believe that will be all I need to put me in perfect health. I will always recommend Chasco-Vin. It is a wonderful tonic."

Chasco-Vin is pleasant to take and children like it. It is a Strength-Creating Tonic, for both young and old, containing tasteless cod liver extract, hypophosphites, iron and malt and other blood-making ingredients.

Usually one or two bottles will increase the strength and vitality of those who are weak and run-down as much as 100 per cent in two weeks time.

Chasco-Vin is sold only by specially appointed agents, in Alexandria the agent is Edgar Warfield, jr.

For ordinary coughs take Chasco Koff Knocker. For slight colds, take Chasco Kold Knockers, made by the Mfgs of Chasco-Vin.

N. Y. LEAGUE OF WOMEN VOTERS

(From New York Globe)

"Seldom has a public officer been so honest in a declaration of reactionary principles as was Governor Miller in his speech to the delegates of the League of Women Voters; seldom has a public officer been so obviously mistaken, seldom so easily refuted. The League's letter in reply bowls over his arguments like ten pins. Surely it is not the Governor's intention to set them up again, laboriously, to be knocked down. His efforts in this direction will serve only to furnish the advocates of the welfare bills with publicity and talking points.

"You ask us to remain docile members of parties, the league answers the Governor, but within the parties we are not treated as equal. "We are forbidden to exercise independence or judgment, and are openly advised that there is no place in the party except for those who take orders. You ask us, they continue, to dissolve our nonpartisan organization because of the deleterious effect of non-partisan lobbying on legislation. 'Do you include in this such groups as the State Charities Aid, the Dairymen's League, the Grange, the Citizens' Union, the Bar Association, the American Legion, and the Manufacturers' Association, or are we a menace because we are women?' There is no evading this question, nor a more difficult one, which it implies, concerning the number of lobbyists employed at Albany, and the aims of those who employ them.

Governor Miller spoke from a full and prejudiced heart. Upon reflection it may occur to him that Mrs Catt was correct in her rejoinder that no great reform in our history has been initiated by a political party. The original impetus comes always from a smaller group. The League of Women Voters has adopted the only tried and efficient method of getting things done.

There is truth in Governor Miller's statement that the influence of non-partisan minorities has been pernicious. But the most active and pernicious of minorities in the lobbies at Albany and Washington are working tooth and nail to kill the measures which the League of Women Voters favors. When the lobbyists of corporate interests are no longer to be found in our capitals it will be time to take seriously the argument that non-partisan groups should drop their efforts toward just and humane regulations. Laws providing for the 8 hour day for women, the abolition of night work, and health insurance are not directed at the individual but at unscrupulous employers who are willing to take every economic advantage of helpless employees at the expense of the individual and the race.

The New York State League of Women Voters wisely puts the emphasis on projects calculated to appeal to mothers, home-makers, and educators. Whether we like the arrangement or not, it remains true that women are mothers, home-makers, and educators in the vast majority of cases. They should be able to initiate and influence legislative action calculated to better the status of children and mothers in the community. There is no question that they can play other parts; but they can speak with most authority along these lines, and moreover there is much to be done which would never occur to the masculine temperament as worth an effort.

Such things, to quote from the league's programme, as federal aid to maternity and child life, an active campaign for the prevention of venereal disease, and education in sex hygiene, the abolition of discrimination against women employed by the government, better conditions for women in industry, better distribution of food products to reduce the cost of living, a federal department of education, and direct citizenship for married women. Some of these proposals so far surpass the ordinary run of legislation in scope and importance that the minor operation of state and national asemblies is quite dwarfed beside them.. Here is the woman's point of view, honestly presented. It may not achieve immediate victories; it may never dominate. But there is no escaping it from this time forth. It will have its day."

Old time Quality

OLD things are sometimes best. Especially so, when they have proven their worth as thoroughly as Piedmonts have—for twenty-five years.

That's a long time in the life of a cigarette. And, Piedmonts are just as good today as when you smoked your first one.

Same fine native tobacco—Virginia—same lively, appetizing taste. Same real old-time quality—different from anything you get in cigarettes nowadays.

U. S. EMPLOYMENT BULLETIN.

Reports on Industrial Conditions in South Atlantic States

Virginia—It is reported that the percentage of reduced employment in the textile industries has been largely affected by the closing down of a large overall factory, releasing 1,400 workers.

Richmond—Large locomotive works show a substantial increase in employment from 1919 and has absorbed some machinists released from other shops.

North Carolina——The small percentage of textile workers out of employment is due to the fact that both night and day forces have been maintained, although production in the textile mills is at least 50 per cent below capacity. Mill operators, however, have kept their forces by working three days a week andwith occasional shutdowns of aweek or 10 days rather than to close down indefintely There is a very noticeable optimism among cotton mill operators, who apparently believe that orders must begin to come in in the early spring in sufficient quantities to enable them to operate on practically full time. It will be noted that there has been but verylittle let-up in employment in the building trades.

Georgia—Information indicates an 80 per cent reduction in employment from January, 1920, to January, 1921, in the cotton oil mills industry; fertilizer factories also indicate an 80 per cent reduction. It is reported that there are 3,200 idle railroad shop and track men. The heavy percentage of reduction in employment in the textile mills of Georgia as compared with North and South Carolina is due to the fact that night shifts were very generally laid off in Georgia mills. Outside of that the mills have maintained their forces by working two or three days a week

West Virginia—Reports received indicate that 40,000 coal miners are idle and 60,000 working on half time.

Maryland—Reports indicate that there has been a reduction of about 2,000 workers in miscellaneous industries from January, 1920, to January, 1921. Shipbuilding indicates on reduction in employment between January, 1920, and January, 1921. Public utilities reported indicate a reduction in employment of 1,365. Reports from western Maryland indicate that 70 per cent of coal mines are closed for lack of orders.

Baltimore—The Baltimore municipal budget, 1921, appropriates for schools, sewers, bridges, harbor, street conduits, water supply, police and fire station, $22,100,000. For harbor improvements, constructions of piers, warehouses, and facilities, $5,025,000. Other small items, $2,300,000. It is reported that the housing shortage is serious and receiving lively attention of Baltimore business men's organizations, but no definite program appears to have been decided upon as yet. Large additions to new manufacturing concerns to begin operations this spring are expected to quickly absorb surplus labor.

South Carolina—While the textile industry in this state shows a very small decrease in employment, this is due to the fact that the mills are working on one-third to one-half time and have been shut down at intervals of a week to 10 days at a time. They have maintained their forces with nothing more than an inconsiderable reduction in the total number employed. In addition to data reported in Table 1, it is stated that 60 per cent of the railroad shop and track men have been laid off throughout the State.

Florida—It is reported that shipyards in Jacksonville show a reduction in employment from January, 1920, to the present time of 96 per cent, indicating about 7,700 idle. The shipyards in Tampa and Pensacola indicate a rdeuction in employment of about 93 per cent, leaving 2,500 idle. The railroad shops in the State indicate a decrease in employment of aobut 50 per cent, indicating about 700 idle. Naval stores indicate a reduction in employment of about 75 per cent in the State, leaving about 9,000 idle. It is reported that skilled labor employed in 1919 in shipyards and to a great extent in the building trades has not remained as a general rule in Florida; most of those that weer able to leave have drifted out of the State in search of employment elsewhere. In addition to railroad shop reduction, at least about 50 per cent has taken place in track working forces in this State.

British Tolerance—Owing to the fact that Dr. Bell has experienced no unpleasantness during his stay over here, it is thought that the American genius who invented revues may now risk a visit to our shores.—Punch (London.)

Jes' Right—Sir—After purchasing a quart I found it corroded my zinc-lined interior, so I gave it to Al, our saddle-colored janitor. Later I asked him how he found it. He replied: "Jes' right, Cap'n, jes, right." "What do you mean, 'jes right'?" said I. "Well, suh, Cap'n, if it had been any better you wouldn't have give it to me, and if it had been any wusser I'd 'a' died. It was jes' right."—J. G. S. in the Chicago Tribune.

Anything to Oblige—The constable of a New England village, a man of exceeding good nature, found it necessary to lock up three tramps who had strayed into his jurisdiction. Shortly after the arrest he was met by the mayor of the village, who, observing the constable hurrying down the main street, asked.

"Where are you going constable?"

"Oh," exclaimed the constable, "the three tramps I just locked up want to play bridge, and I'm out hunting for a fourth!"—Harper's Magazine.

HOME ECONOMICS EDUCATION

(From U. S. Govt. Bulletin)

Alabama Offers Special Classes in Home Making

In the State of Alabama special evening classes in home making for women and girls are being featured in the vocational work of the year 1920-21. Tallassee is beginning its second year of the work; classes are being organized in several centers of Birmingham; Lanette and Shawmut are both getting ready for starting th ework at once; and other centers are planned. Instruction is offered in the usual units of four to six weeks, each unit dealing with some definite home problem. Some of the units are the following: Balanced meals, preparation of desserts, making bread, simple clothing, children's clothes, dresses, care and feeding of children, health, and house sanitation. Classes meet twice a week in the afternoon or evening from one and one half to two hours, and are organized for groups of 15 to 25 women or girls, over 16 and not enrolled in any school, who desires instruction in some subject.

Home Economics Vocational Classes in Missouri

The last news letter from Missouri tells of valuable work which is being deevloped in the vocational classes in home economics. In Richmond the second year vocational class in home economics has organized a nutrition clinic for malnourished children of the primary and elementary grades. The children attend the clinic every Friday afternoon and the mothers of the children are urged to be present. The vocational class in home economics in King City will prepare and exhibit tpical diets for children between the ages of 2 to 4 years and 4 to 8 years Menus will be shown illustrating how milk may be introduced into the diet of children by various and attractive dishes. In Brunswick, a hygiene campaign is in progress, in which each member of the vocational class in home economics is obreriving regular sleeping hours in a well ventilated room, is taking daily exercise, eating regular meals, wearing round-toed shoes with sensible heels and observing other sane habits of dress.

How to Reach the Public Solved by the Home Economics Departments in Louisiana

Through the efforts of the State supervisor of home economics, Miss Cleora C. Helbing, and her assistant, Miss Clyde Mobley, in cooperation with the home economics departments of the State institutions, a splendid demonstration was conducted recently at the Louisiana State Fair for the purpose of promoting and introducing hot school lunches into the schools throughout the State A well-screened and sanitary kitchen, fully equipped through the courtesy of local firms, was arranged and food charts and appropriate menus for school lunches were displayed in good poster form. Daily in this kitchen the students of the various home economics departments of the colleges and normal schools carried on a practical demonstration in preparing and serving good hot lunches at cost. This method emphasized in a very practical way the problem of hot school lunches and at the same time served to exemplify the type of training in home economics, which is offered by home economics departments. Without any doubt, the demonstrations carried on at the State fair of the hot school lunch did much to arouse the people of Louisiana to see the need of wholesome food for children and at the same time gave a great impetus to the work in home economics education now in progress throughout the State.

"Cascarets" Tonight For Constipation

Just think! A pleasant, harmless Cascaret works while you sleep and has your liver active, head clear, stomach sweet and bowels moving as regular as a clock by morning. No griping or inconvenience. 10, 25 or 50 cents buys. Children love this candy cathartic too.

DAY

HAWK KILLING CONTEST IN VIRGINIA

Richmond, Feb. 15.—Complete details of the hawk-killing contest to be staged by the Virginia Game and Game Fish Protective Association and for which substantial cash prizes are offered, have been announced. The prize list follows:

First prize—$100 and a Parker shot gun.

Second prize—$75 and a Winchester pump gun.

Third prize—$50 and 500 shells.

Fourth prize—$25 and 500 shells.

To the next three—$20 cash.

To the next four—$15 each.

To the next ten—$10 cash.

To the next eight—$5 each.

The conditions are:

Hawks must be killed between March 1, 1921, and December 1, 1921. No prize will be awarded to any person residing in a county the board of supervisors of which has not adopted the bounty act of 1920, or which does not pay a bounty on hawks.

No prize will eb awarded in cases where two or more persons combine their kills.

Any proof of fraud in this connection will disqualify a contestant from any prize.

The upper beaks of hawks killed must be taken to the county clerk and affidavit made that they were killed in the county in which the contestant resides and between the dates mentioned. In counties which have adopted the bounty act of 1920 clerks will make no charge for making affidavit.

The prizes apply to all hawks. Prizes will be awarded on the records of board of supervisors. Where beaks presented are not of the species of hawks on which the county pays bounty contestants should have clerks note this fact on affidavit. In other words, a contestant may kill hawks on which no bounty is paid but still be credited with these kills in the hawk-killing contest.

The prizes are awarded as a means of reducing the number of hawks in the state and it is to be hoped that thousands of the pests will be destroyed.

Further details of the contest may eb had from the State Game Department, Richmond.

The Unexpected—"I never dreamed of anything like this when I invented the telephone," said Dr. Bell after a demonstration. Neither as a mater of fact did we when we hired ours.—Punch (London.)

Try a want ad in the Gazette for results.

MOVIES BY WIRE

Motion pictures are to be sent by wire. The name of the marvelous apparatus is the "Telecinematograph." The American boy who has shortened the long word cinematograph to "movies" will probably find an equally expressive word for the new apparatus. Photographs are now being sent daily by wire for hundreds of miles and it is believed the telegraphic transmission of moving pictures will soon be a commonplace The method is the discovery of a Frenchman. It consists of a cylinder with minute grooves only 1-20 of a millimeter in size controlled by much complicated electric apparatus. By this it will be possible to take a movie in London, for example, and watch its reproduction a few minutes later in American cities.—Boy's Life for January.

INCOME TAX FACTS YOU SHOULD KNOW

Thousands of women are required to file an income tax return and pay a tax on their income income for the year 1920. No official estimate of the number of such women can be given by the Bureau of Internal Revenue, but statistics of income for the year 1918, just issued, show that the number of returns filed by single women for that year was approximately 266,000. The tax paid by these women amounted to $109,902,600.

In addition there were filed approximately 33,000 returns by single women claiming an exemption of $2,000 as heads of families, being the sole support in their households of one or more relatives. Tax collections from these women amounted to $273,794,078.

The number of wives making separate returns from husbands was approximately 36,000 and the amount of tax collected from this source was $332,218,794. These figures show that taxes paid by women form an important item in government revenue.

The exemption allowed single women, or a married woman who is not living with her husband, is $1,000. The normal tax rate on income in excess of this exemption is 4 per cent on the first $4,000 of net income and 8 per cent on teh remaining net income. In addition there is a surtax which applies however only to net income in excess of $5,000.

The term "single women" includes a widow, a divorcee, or a person separated from her husband by mutual agreement. A married woman whose income is from a separate source than her husband's may file a separate return.

A married womn living with hed husband is not allowed a prescribed exemption. The exemption allowed a married couple is $2,000. The $2,000 may be taken by either husband or wife or prorated between them.

A woman who was widowed during the year 1920, unless the head of a family or remarried on or before December 31, 1920, may claim only an exemption of $1,000. A wife supporting an invalid husband in a sanitorium is enttiled to a $2,000 exemption. The separation is one of necessity and she is not considered for income tax purposes to be "living apart" from her husband If, however, there is continuous voluntary separation between husband and wife, whether or not granted by court decree, each must tack the status of a single person with respect to the income tax.

2,500,000 AUTOMOBILES ARE OWNED BY FARMERS

"Two and a half million automobiles, one third of the total number of motor cars in the United States, are owned and operated by farmers," says Clyde E. Loose, president of the Morton and Loose Corporation, local distributors for the Davis Six. "More important even than these figures is the fact that at least two thirds of the present production of automobiles is being sold to the farmer. Owning already one third of all the automobiles, the farmer is now buying two thirds of the current annual production.

"The great increase in the number of automobiles owned in agricultural States is due primarily to the fact that the motorcar is an absolute necessity to the farmer. It increases by almost 100 per cent. the farmer's productive force, through its saving in time and the wider opportunities in the transaction of business which it gives. It is not uncommon for a farmer's automobile to pay for itself in the first year.

The Bandit Out-Bandited

General Francisco Villa, once the leading Mexican rebel leader, who made his peace with the De la Huerta Government last summer and retired to a large estate at Canutillo, in Durango, given him by the Government, has complained to President Obregon that bandits robbed him of 200 head of horses. Villa asks for more adequate protection from marauding bands.—Louisville Courier Journal.

Not for Father.—"Mama, is papa going to die and go to heaven?"

"Of course not, Bobby. Whatever put such an absurd idea into your head?"—The American Legion Weekly.

Peevish, at Least.—"I had to kill my dog this morning."

"Was he mad?"

"Well, he didn't seem any too well pleased."—Western Christian Advocate (Cincinnati.)

MUCH NEEDED STREET RAILWAY IMPROVEMENT

Ten Virginia commercial and industrial organizations, have just recorded themselves in favor of a comprehensive program looking to improvement of the country's street railways. The result of their vote on a referendum on public utilities, conducted by the Chamber of Commerce of the United States, made public today, shows that they approved by large majorities all of the eight recommendations advanced by the public utilities committee of the Chamber.

The organizations voting were: Chamber of Commerce, Alexandria; Chamber of Commerce, Culpeper; Chamber of Commerce, Lynchburg; Chamber of Commerce, Newport News; Chamber of Commerce Board of Trade, North Carolina Pine Association, Norfolk; Virginia Coal Operators Association, Norton; Chamber of Commerce, Southern Supply and Machinery Dealers Association, Richmond; Business Men's Association, Inc., Williamsburg.

The propositions considered follow:

Existing traction facilities should be conserved.

The attitude which is taken towards street railway problms should contemplate private ownership and operation.

Regulation should everywhere be instituted that will follow promptly changes in the situation of the companies rendering services of local transportation.

Provision should be made against the consequences of unfair competition.

All burdens unrelated to the service performed should be removed from street railways.

Official responsibility should be definitely fixed for the application of regulation.

Each company should seek to have available for the public at all times the facts as to the results of operations and should have resident responsible executives wholly conversant with local requirements.

"The Smartest Guy in the World"

Two well-known gamblers stood on the sidewalk outside the Waldorf-Astoria the other evening, talking of this and that and what not. Suddenly through the door of the hotel came a middle-aged man attired in evening clothes. He was the picture of affluence, of success. As he entered his waiting limousine he bowed to one of the gamblers.

"Who's that?" queried the second knight of chance. "That's John A. Whoozis, president of the Nickel Plate Trust," was the answer. "He's an awful sucker. I took him for $50,000 one night with a crooked wheel!"

Along Thirty-fourth street came a sedy-looking man of 50 with the collar of a shabby overcoat turned up around his ears. "Hello, Joe," he said as he passed the two gamblers standing talkin goutside the Waldorf. "Whose your friend, Joe?" said one of them, looking after the derelict. "That," said Joe, impressively, "is Poker Pete, the smartest guy in the world."

Tomorrow Dollar Day

And the price is not the most pleasing feature of this great sale. The values that are being offered for this sale are greater than have ever been offered before and no woman in Alexandria can afford to miss reading the items listed below.

ANT ENGINEERS

It has been found that the population of an ant hill has solved many complicated mining problems. Thousands of ants working instinctively perform miraculous engineering feats with amazing efficiency and without profiteering. Each ant finds its own work and the team work when big problems must be solved is surprisingly efficient. When one shift of workers tires or must stop for food or rest its place is taken by other workers equally skilful so that not a moment is lost. When an ant becomes covered with dirt others immediately clean it by washing and brushing. During their mining operations in digging holes and removing stones an ant is often injured, whereupon others rush to its assistance and carry it to a quieter gallery where first aid may be administered. The resourcefulness of these little engineers has been found to anticipate many of our recent efficiency methods.—January Boy's Life

Ship Receives 297 Tons of Bunker Coal in 20 Minutes

A statement of records for rapid coaling of ships at the Cristobal coaling plant was published in a recent issue of The Panama Canal Record. On December 19 a new record for delivery in 20 minutes was established, when 97 tons 580 pounds were loaded in that time into the bunkers of the steamship Rio Grande. The vessel docked at 5:55 p. m.; coaling began at 6:20, and the ship sailed at 6:40.

The coaling was accomplished by one reloader and was at a rate of 821 tons an hour. The rated capacity of each of the 4 reloaders is 500 tons an hour. The ability of the machines so greatly to exceed their original rated capacity is due to improvements made on them at the coaling plant since they were installed.

ADEQUATE SALARIES FOR CALIFORNIA TEACHERS

By a majority of over 2,000,000, the voters of California on November 2, 1920, passed a constitutional amendment that makes mandatory proper provision for salaries of public school teachers. The amendment makes possible a very definite tax, one directly proportional to the growth of the schools. This forward looking measure provides that there shall be set aside, from the public funds for school purposes, an amount not less than $30 per pupil per year in average daily attendance in the elementary and high schools, and that the counties raise in addition an amount equal to at least $50 per pupil per year in average daily attendance in the elementary schools and at least $60 per pupil per year in average daily attendance in the high schools. All of the money received from the State and 60 per cent of the sums raised by the counties must be used for teachers' salaries. This amendment, it is said, will make possible a statewide minimum salary of $1300.

Oregon House Votes War Bonus

Salem, Oregon, Feb. 15.—The Oregon house ha passed a bill providing a bonus to Oregon ex-service men of $15 a month for each month served in the world war. The bill also provides an alternative of farm or home loans, exceeding $3,000. If passed by the senate and approved by the governor it would be submitted to the voters.
